EDUCATION

B.S. Computer Science
Dixie State University
Jan 2015 – May 2019
St. George, Utah

- Cum laude, 3.75 GPA.

EXPERIENCE

Software Developer
Aptivada LLC
Oct 2018 - Present
St. George, Utah

- Used agile principles to develop responsive, legacy-browser-compatible marketing apps with 350,000,000+ engagements using Typescript, React, React Native, AVA, Jest, PHP, Docker, and AWS services.
- Communicated directly (verbal + written) with clients overseeing 150+ markets to determine project requirements, oversee implementation, and estimate time for market-wide integrations and applications.
- Acknowledged and implemented tradeoffs to storing, querying, and displaying high volume data sets.
- Developed and maintained 40+ third party social media and administrative platform integrations.
- Implemented fallbacks for cross-site security policies, 3rd party extensions and browser settings to ensure functionality.

Software Development Intern
CodeChangers LLC
Jan 2017 - Oct 2018
St. George, Utah

- Utilized Ruby on Rails and AWS to extend, migrate, and deploy changes to the CodeChangers online learning platform.

Code School Instructor
Dixie State University
Jun 2018 - Aug 2018
St. George, Utah

- Instructed students during rigorous modern web development course including Vue.js, Node.js, Express.js, and Mongo.

Code School Aide
Dixie State University
Jun 2017 - Aug 2017
St. George, Utah

- Assisted instructors with teaching topics including React.js, Node.js, Express.js, and Mongo.

Software Development Intern
Midstream Logistics
May 2017 - Aug 2017
St. George, Utah

- Contributed to Django MVC web application aimed to streamline oil delivery systems. Model extensions, migrations, scripting, page profiling, and templating. Interfaced with AWS CloudWatch, Lambda, and S3. Minor Swift development for iOS client application.
